# **OS 345**

**OFFSHORE**

When tasked with designing a replacement model for the 335 Offshore — the best selling model in Pursuit's history — our engineers had a tall order to fill. Fortunately, our staff is full of over-achievers and the OS 345 was born.

The OS 345 is slightly longer and wider than her predecessor, this model features an expansive cockpit for fish fighting and a large cabin for cruising and overnighting in comfort.

The hull has been specifically designed for twin Yamaha 350 hp 4-stroke engines, which provide optimal performance. Standard bow thruster will give any captain the confidence to dock in close quarters, wind or strong currents. The express design includes an open helm with optional bridge deck air conditioning and an aft canvas enclosure so you can escape the elements without escaping the view. This layout also

affords quick access from the helm to the cockpit when you have more screaming reels than anglers.

The cockpit includes ample seating and an electric grill for entertaining and a host of fishing features including a circulating livewell, a comprehensive rigging station with locking tackle drawers, insulated fish boxes and enough elbow room that you're not running into each other.

In the cabin, we've developed an innovative circular seating arrangement forward for dining and socializing. The mid-cabin berth includes a comfortable settee. The head compartment features a separate shower compartment uniquely enclosed with the bi-fold acrylic cabinet door when in use. The galley features stainless steel appliances and Corian® countertops like those found in fine custom homes — that's appropriate since you'll probably want to live aboard the new OS 345.

\*Net tank capacity. The usable fuel capacity will be affected by several factors, including EPA-required fuel system components, temperature and loading of the boat. These factors will reduce the usable fuel capacity by approximately 10%. \*\*Range based on 90% of total fuel capacity.
